- 1 pack of white lined paper
- 2 dry erase expo markers (communal)
- 1 ream of printer paper (white)
- Package of index cards (not spiral bound pack)
- 1 roll of Scotch tape
- Take home folder

Science Supply List For Classroom Hands-on Activities

In science class, the best way to understand a concept is often to physically experience it! Therefore, we use a lot of consumable materials each year.

To help ensure that students get the most beneficial and enjoyable learning experience, please be sure to add the item assigned to your student by last name. **These will be shared classroom resources. The list is divided so that everyone's items should be \$10 or less.**

Please note: You are not responsible for the full list of items, we only ask that you include the items associated with the first letter of your student's last name!

<u>LAST NAME begins with the letter:</u>	<u>Item(s):</u>
<u>A-C</u>	Cardboard Moving Boxes (5)
<u>D-G</u>	Foam Board and Poster Board (3 of each)
<u>H-K</u>	1 bag of 3oz Dixie cups and 1 24-pack of 16oz water bottles
<u>L-O</u>	1 roll of duct tape
<u>P-R</u>	Package of modeling clay and 1 package of hot glue sticks
<u>S-Z</u>	<u>\$10 Home Depot card</u> (There are a lot of misc. items that we need for building cool projects together that I don't know how to divide amongst you all in a way that's fair; things like wood, PVC, hardware, wire, etc.)
